7 Questions A Smart Shopper Should Know ...

POINTS TO CONSIDER

DJ VS. EMCEE	1
INSURANCE	2
ONLINE MARKET	3
ANSWER THE PHONE?	4
EXPERIENCE	5
MEETING TIMES	6
ADEQUATE SOUND?	7

1. **Am I aware of the difference between a DJ and a DJ/MC Event Coordinator?** *Our staff will act as your DJ/MC and wedding coordinator if needed at your reception. Making sure that all events flow smoothly and no family or friends have to take charge of anything unless requested by you. This should be the first requirement of any DJ/MC.*

2. **Are the entertainers individually insured?** – *This can be a good question to ask. Some companies have a few people that “work for them” for 4 hours a week or your event. Pay them 100-150.00 and they are on their way, if something happens while they are performing at your event, you might never be able to recoup anything if they are a college or high school student. At TulsaWeddingDJ.Com all our performers are 100% insured for liability and property damage.*

3. **Can I visit, exchange information and conduct business online with this company?** – *TulsaWeddingDJ.Com has a state of the art website, we have a online planner for you to choose music, send us messages and make payments if you wish. We are established and will be around when your wedding day arrives.*

4. **Is their phone etiquette friendly, respectful and informative?** *We always answer our phone unless in a meeting or all lines are taken. We want you to feel at ease and we never pressure you to book on the phone unless you want to. We want you to feel as comfortable as possible with your decision. Do they answer their phone during normal business hours? How easy are they to get in touch with if you have a urgent question?*

5. **How many wedding receptions has my DJ/MC performed at?** *We know a school dance isn't the same as a wedding and you should ask this when choosing your DJ. Just because someone says they have performed at so many events, how many of them were weddings? We have never actually counted but well over 300 weddings have been touched by our sophisticated DJ/MC team of two DJ's. All with the same motivation to go above and beyond our clients expectations each time.*

6. **Can they meet me past 5:00pm to accommodate your busy work, college, or home schedule? Or can they meet during the day at your request?** *We are available to meet with you and your fiancé anytime, day or evening. At your place or our office, we have even met at venues to go over the floor plan and make a few suggestions that have really helped brides and grooms just like you out.*

7. **Can the entertainer provide a sound system adequate for your event location and the number of guests in attendance?** *When you book your DJ compare apples to apples. There are some companies that use, cheap, disco type lighting at your elegant wedding. We never want to throw out the cheese to you (unless you request it) so your choice of DJ/Emcee should be the same when it comes to equipment. We use only the best, state of the art sound and lighting that will blend in with your venue. We never want to be the center of attention that is for you!*
